1. Profile Description

Euromind is an international training and education centre specialising in the comprehensive organisation of internships for VET mobilities and educational programmes for school and adult group and short-term mobilities.

Euromind also delivers job shadowing and courses for teachers from across the European Union in cooperation with its sister company idevelop Training (www.ideveloptraining.com).

Euromind has been operating in the European market since 2011 and employs around 60 people. The company's headquarters is located in Seville, Andalusia, south of Spain. Offices are located in 2 towns in Spain: Seville, Málaga, and one in Portugal: Setúbal. The company stands out for its great experience in organising training programmes.

As an active partner, it has supported more than 450 vocational training institutions in the preparation and implementation of mobility programmes.

More than 9,000 vocational and technical school pupils, students, graduates, unemployed people and employees have benefited from euromind's services over the years. A full list of projects with numbers and titles can be found on the euromind website, www.euromind.es under Past Projects. It should be noted that this list is constantly being updated.

Participant Name	Participant Profile	Host Organization
Lenka Majerčínová	Designing interiors	Notorius Kitchen M and M S.L - Mobalpa

Sarah Menczerová	Designing interiors	Estudio de Arquitectura e Interiorismo

Host Organization: Notorius Kitchen M and M S.L - Mobalpa

Address: Plaza de Sancha 2

Tutor's name: Jorge Andrés Márquez Arjona

1. Description of the host organization

Notorius Kitchen M and M S.L (Mobalpa) is a company specialising in custom-made kitchen furniture. The company uses high-quality materials and also produces kitchen designs in 3D format. The company's employees design and manufacture the furniture. Mobalpa specialises in kitchen furniture of different types: modern, classic, vintage, scandinavian and industrial furniture. Since the company values functionality, the assembly of bedrooms and bathrooms is also part of its services.

2. Main responsibilities & tasks carried out during the work placement

- Identifying and studying each detail of the final objectives of each project
- Assessing the different ways of resolution at the level of style or trends
- Proposing creative ideas of the space to be projected (curtains, wall coverings, finishes, accessories, furniture)
- Tener en cuenta cómo se usará el espacio y cómo las personas se moverán a través del espacio
- Using programs of 3D graphic animations and virtual visits
- Placing orders for materials and oversee installing the design elements
- Making sketches and drawings for clients

3. Tutor's final note

6

4. Participant's opinion about their personal & professional development

I evaluate my Erasmus stay very positively. As part of my studies, I had the opportunity to work in studios, which gave me a different perspective on practice. I met many people from different countries, improved my language skills, and became more independent. It was a valuable and enriching experience that I would definitely recommend to others.

6. Pictures

Host Organization: Estudio de Arquitectura e Interiorismo

Address: Plaza de la Independencia 5

Tutor's name: José Ojeda Martes

1. Description of the host organization

José Ojeda Architects is an architectural studio based in Málaga (Torremolinos), led by architect José Ojeda. They specialize in a wide range of projects: single-family and multi-family housing, sports facilities, industrial buildings, renovations, rehabilitation, sustainable architecture, interior design and landscape planning. They operate across Andalusia (Málaga, Seville, Córdoba, Granada, Cádiz) and offer services in Spanish and English.

2. Main responsibilities & tasks carried out during the work placement

- Identifying and studying each detail of the final objectives of each project
- Assessing the different ways of resolution at the level of style or trends
- Proposing creative ideas of the space to be projected (curtains, wall coverings, finishes, accessories, furniture)
- Using programs of 3D graphic animations and virtual visits
- Using the Autocad program
- Making sketches and drawings for clients
- Searching for additional materials useful during the creation of the project

Host Organization: Reco52 Interiorismo

Address: Calle Teniente Segalerva Ruiz 8

Tutor's name: Maria Carmen Sanchez Miguel

1. Description of the host organization

Reco52 is a company based in Marbella and Águilas that operates in two main divisions: one specialized in construction and photovoltaic installations, and another dedicated to interior design. In the construction/photovoltaic division they handle solar installation for self-consumption, general building works, and energy-efficiency projects. In the interior design department they focus on space planning, furniture selection, lighting design, finishes, decoration and ambiance, tailoring everything to the client's style. They aim to merge functionality, aesthetics and comfort to create personalized, harmonious environments. Their philosophy combines technical innovation with visual sensibility to produce spaces that are both practical and wel

6

4. Participant's opinion about their personal & professional development

During my Erasmus experience in Málaga, I encountered both positive and challenging aspects. One of the main difficulties was my work schedule, which unfortunately did not allow me to spend as much time with the rest of the group as I would have liked. On the other hand, I was very satisfied with my workplace, where I gained many new insights and knowledge in the field of interior design.

6. Pictures

Host Organization: Arkitech Viviendas Industrializadas

Address: Calle Ciro Alegría 13

Tutor's name: Angie Terribas

1. Description of the host organization

Arkitech Viviendas Industrializadas designs and builds innovative, sustainable, and high-quality modular homes. Its model combines energy efficiency, fast construction, and competitive prices, offering customized solutions that meet each client's needs. The company promotes industrialized housing as a way to improve livability, shorten delivery times, and reduce environmental impact.

6

4. Participant's opinion about their personal & professional development

I really enjoyed these two weeks spent in Málaga, whether at work or during my free time. The work itself was very interesting and such a good experience for the future; it helped me realize whether this is truly what I want to do in life, and the answer is yes. What I also loved was that after work we had free time to spend however we wanted, whether on the beach or in the beautiful city.

I'm so grateful I could be here. I've learned new things, and it was such a great experience. I'll really miss this place.

6. Pictures

1. Mobility project preparation & Induction

Before the participants arrived, Euromind provided them with a pre-arrival guide packed with essential information about local transportation, social activities, and emergency contacts. Additionally, Euromind organized online meetings to introduce themselves to the participants and conduct interviews. Following these interviews, a dedicated group on social media was established, facilitating ongoing communication between Euromind, the selected participants, and their accompanying teachers, fostering a sense of community even before their arrival in the host country.

Drawing upon a thorough evaluation of participants' CVs and interview outcomes, Euromind carefully matched each individual with suitable host organizations. Ensuring compliance with all necessary regulations, Euromind individually prepared Learning Agreements for each participant and ensured that all involved parties signed the required documents.

Upon the group's arrival, Euromind hosted a welcoming meeting where participants were introduced to the Euromind team and briefed on the program agenda, accommodation guidelines, and dissemination strategy options. Subsequently, the Euromind team accompanied participants to meet their designated mentors at the host organizations, acquainting them with their workplace environment.

To aid in their integration into the local community, participants were taken on a neighbourhood tour, familiarizing them with nearby amenities such as banks, post offices, supermarkets, and bus stations. This comprehensive approach aimed to facilitate participants' smooth transition and adaptation to their new surroundings.

2. Monitoring & Mentoring

To ensure the fulfillment of Learning Agreement objectives and the seamless integration of participants into work culture, monitoring was conducted collaboratively by all project stakeholders. Euromind designated a coordinator responsible for introducing participants to the host organization(s).

Throughout the program, mid-term and final monitoring and evaluations were conducted to review participant tasks, progress, and gauge satisfaction levels from both participants and host organizations. Following the mid-term evaluation, the coordinator met with participants to discuss the results. Any areas of concern were addressed privately to allow for open discussion and problem-solving.

Host organizations appointed staff members as tutors to assist, inform, guide, and supervise participant work. These tutors held regular meetings with participants to assess their presence, discuss tasks, and adjust responsibilities as needed based on company and participant requirements.

At the program's conclusion, during a farewell session, Euromind distributed evaluation sheets for participants to assess their experience in Spain, their work placements, and Euromind's performance. Euromind remained available to participants 24/7 for emergency assistance.

3. Communication

Euromind takes good care of successful communication between companies and trainees. Each evaluation of work is aimed at improving the quality of cooperation. Each party is thoroughly checked and assessed and the necessary improvements are introduced. Moreover, Euromind mediates in this supervisor-trainee collaboration by translating and solving language-connected complicated matters.

4. Dissemination strategy

Euromind actively participated in preparing and disseminating project results alongside the sending organization and participants. Throughout the mobility program, Euromind organized weekly one-hour meetings with participants to monitor their progress and ensure they gathered all necessary information regarding their work placements and stay in the host country. The materials produced by participants served as valuable tools for disseminating project results to all stakeholders involved.

Participants had the flexibility to work either individually or in groups. On the first day, they were required to decide on the method(s) they would use to document their professional experiences. Typically, the entire group created a Facebook page, recognized for its effectiveness and accessibility to a wide audience. This platform appealed particularly to young people, allowing them to share their experiences instantly.

Apart from the Facebook fan page, the trainees were encouraged to prepare a PowerPoint presentation in English which they would be able to use to disseminate the results of the project back home (conferences, meetings with other students, parents, etc.).

Euromind also disseminates the project at a local level. It organises language and cultural exchanges between the international trainees and students from local vocational colleges. During those meetings both Spanish and International students are involved in a number of activities the aim of which is to get to know each other, share experiences related to work experiences and in general their stay in Spain. The students also exchange information about their countries and cultures.

5. Certification

At the conclusion of their stay, participants received comprehensive validation of their acquired skills, knowledge, and competencies through various recognition methods, including:

- Training Certificate
- Europass Mobility Certificate
- Transcript of Records reflecting acquired learning outcomes
- Language Course Certificate, if applicable

1. Project promotion (dissemination) meetings with euromind Coordinator (1 hour per week)

The primary aim of the dissemination meetings was to create materials that would serve as promotional tools for the project once participants returned to their home country. These meetings were held weekly and facilitated by the Euromind Coordinator, who played a crucial role in ensuring the success of the dissemination efforts. During each session, the Euromind Coordinator met with the participants to review their progress, address any challenges they encountered, and provide answers to their questions. This consistent support helped to maintain momentum and ensure that any obstacles were promptly resolved. The coordinator also monitored the development of the dissemination tools, ensuring that they met the project's standards and objectives.

2. Malaga city walk with euromind

3. Catamaran: Exploring Málaga's Coastline

The group enjoyed a small trip on a catamaran in the crystal-clear waters of the Mediterranean Sea. Participants viewed Málaga from a unique perspective, appreciating the beautiful mountains and beaches shaping the coastline. From the boat's deck, they enjoyed excellent panoramic views of Málaga, including the modern architecture of the port. As they sailed away from the coast, they also saw the skyline of the Costa del Sol's capital. During the journey, they observed the famous La Malagueta beach, with the Plaza de Toros, the Alcazaba, and the Gibralfaro Castle in the background. The group marveled at these landmarks from the Mediterranean, gaining a newfound appreciation for the city's rich history and stunning natural beauty.

4. Granada (shuttle bus)

The students had an amazing trip to Granada, a beautiful city at the foot of the Sierra Nevada mountains, renowned for its blend of Judaism, Christianity, and Islam. Participants explored notable sites like the Albaicín district, Plaza Nueva, Acaicerí market, Cathedral, Alhambra, Generalife, and Sacromonte, immersing themselves in Granada's rich heritage. The Alhambra palace, a stunning example of Arab architecture and a UNESCO World Heritage Site, left the students mesmerized by its beauty. They were also fascinated by the gypsy caves of Sacromonte, charmed by the city's relaxed atmosphere and vibrant culture. Granada's stunning landscapes and rich cultural tapestry made it a memorable destination for the students.

5. Mijas 1/2 day (shuttle bus)

During their half-day trip to Mijas, they were enchanted by the village's serene beauty. Nestled on the mountainside, Mijas offered a peaceful retreat away from the busy coastal towns. They wandered through charming cobblestone streets lined with whitewashed houses and vibrant flowers. The breathtaking views of the mountains and Mediterranean coast left them in awe. They also enjoyed a fun ride on the traditional donkey taxis, a unique feature of the village. The group left Mijas feeling refreshed, having experienced its timeless charm and tranquil atmosphere.

The Euromind team worked hard to provide the trainees with an exceptional professional and cultural experience. They were always available to offer support, guidance, and solutions to any challenges the trainees encountered.

The participants were highly satisfied with their professional training abroad, which provided them with valuable experience. It's expected that they will apply this experience in their current roles back home or use it to enhance their job prospects.

Additionally, the participants learned the basics of the host country's language and demonstrated their ability to thrive in a multicultural work environment, both independently and as part of a team.

The Euromind team was extremely pleased with the participants' engagement and enthusiasm throughout the project. Overall, the project was a great success, and we look forward to collaborating on future projects with Škola umeleckého priemyslu .

Málaga, 05/10/2025

Carlos Hoyo de la Torre
Director
